Sir:

This is responsive to the Advisory Action mailed April 4, 2006 relative to the Response filed March 13, 2006. In the Advisory Action, the Examiner asserts that the amendments to the claims necessitated a new search and would not be entered. As a point of clarification and as noted by the Examiner in a telephone interview of April 10, 2006, no amendments were submitted in the Response filed March 13, 2006. Instead, the Response submitted a verified translation of the priority application. As such, it is respectfully requested that the Advisory Action be withdrawn.

Additionally, it is respectfully requested that the Patent Application Information Retrieval (PAIR) system be corrected to ensure that the submitted translation is not mistaken for an amendment to the specification, claims, abstract, and drawings during any subsequent publication of the same.

Claims 1-7 are pending and under consideration. For at least reasons submitted in the Response of March 13, 2006, it is respectfully submitted that all outstanding objections and

rejections have been overcome and/or rendered moot. And further, that all pending claims patentably distinguish over the prior art. Thus, there being no further outstanding objections or rejections, the application is submitted as being in condition for allowance which action is earnestly solicited. At a minimum, this Amendment should be entered at least for purposes of Appeal as it either clarifies and/or narrows the issues for consideration by the Board.

If the Examiner has any remaining issues to be addressed, it is believed that prosecution can be expedited and possibly concluded by the Examiner contacting the undersigned attorney for a telephone interview to discuss any such remaining issues.

If there are any additional fees associated with the filing of this Response, please charge the same to our Deposit Account No. 503333.

Respectfully submitted,

STEIN, MCEWEN & BUI LLP
